(Newsbox) 17-Feb-2012

<https://prsafe.com/dev/release/6409/>

Summary

The global premium messaging market volume is expected to reach 1,134.2 Billion by the year 2017 at a CAGR of 36.8% from 2012 to 2017.

Message

Premium messaging is an opportunity which opens up an additional revenue stream for mobile network operators as the value added services which they offer to customers are chargeable over and above the standard rate SMS or MMS. As the mobile network operators have a wide customer base; they make use of these value added services increases the APRU (Average Revenue per User). Customers prefer to access these services as they are user friendly provide, value to customer and are exciting. Browse All Report: [Premium Messaging Market](#) Premium messaging is segmented into Premium SMS (PSMS) and Premium MMS (PMMS) with the earlier commanding the most of the market volume and revenue. There would be a slight shift of revenue concentration from PSMS to PMMS as a result of penetration of camera mobile phones and reducing PMMS prices. Entertainment is the most popular premium SMS services segment, which includes songs, videos and games, ringtones and TV voting. The global premium messaging market volume is expected to reach 1,134.2 Billion by the year 2017 at a CAGR of 36.8% from 2012 to 2017.
