Summary

GSA awards Working KnowledgeCSP, a service disabled veteran owned small business (SDVOSB), a five year MOBIS contract for knowledge management and acquisition management consulting.

Message

Bill Kaplan, Founder and Principal, today announced the award of a 5-year, Multiple Award Schedule (MAS) by the General Services Administration's (GSA) Federal Supply Services Division. The awarded contract is for Mission Oriented Business Integrated Solutions (MOBIS). The Federal government acquires more than \$41 billion dollars of goods and services through GSA schedules and the MOBIS contract is one of the largest avenues available to consultants.

"The MOBIS award is our first schedule contracting vehicle for providing knowledge management and acquisition management consulting services to the Federal government." - Bill Kaplan, CPCM, Founder and Principal [Pre-Approved Quote]

Under the contract, Working KnowledgeCSP will perform Business Consulting Services and Training Services that includes knowledge management consulting, knowledge management training and coaching, knowledge management assessments, surveys, facilitation, and acquisition management consulting.

Multiple service categories are covered under MOBIS, including SINS 874-1, 874-2, 874-3, and 874-6;

Mr. Kaplan stated, "The MOBIS award is our first schedule contracting vehicle for providing knowledge management and acquisition management consulting services to the Federal government. As one of the most frequently used contracting paths, we are very pleased to be able to bid on knowledge management and acquisition management consulting opportunities via MOBIS. This also enables the federal government to more easily reach Working KnowledgeCSP to help to address the critical issues of workforce turnover and knowledge loss, a key solution area for the company.

Working KnowledgeCSP's winning KM solutions and services provide clients with practical understanding and application of Knowledge Management concepts, strategy, implementing practices, and "context relevant" KM enabling technology to help clients "leverage what they know about what they do" to solve business and operational challenges affecting organization performance and mission success.
