Summary
Future Electronics is featuring Renesas Synergy S1JA MCUs in this month's edition of THE EDGE.

Message
Montreal, Canada (prsafe) April 15, 2019 - Future Electronics, a global leading distributor of electronic components, is featuring the advanced Synergy S1JA MCUs from Renesas in the latest edition of THE EDGE.

The new Renesas Synergy Low-Power S1JA microcontrollers with integrated programmable analog simplify designs and reduce BOM for industrial IoT sensor applications.

THE EDGE is the latest e-newsletter from Future Electronics, and is geared toward engineers and buyers looking for new or leading-edge products. THE EDGE comes out twice per month, and each edition features product information, datasheets and videos showcasing the most advanced new technology in a specific area, such as sensing, lighting, or automotive.
