

i.MX 8M Nano Applications Processor from NXP Featured in THE EDGE by Future Electronics

News-Press Release

Pointe Claire, (Newsbox) 07-Feb-2020

<https://prsafe.com/release/12474/>

Summary

Future Electronics is featuring NXP's i.MX 8M Nano quad-core applications processor in this month's edition of THE EDGE.

Message

Montreal, Canada (prsafe) February 7, 2020 - Future Electronics, a global leading distributor of electronic components, is featuring an applications processor for secure and affordable edge computing from NXP in the latest edition of THE EDGE.

The i.MX 8M Nano applications processor, based on up to 4x Arm Cortex-A53 cores and 1x Arm Cortex-M7 core, features an extensive set of media-centric peripherals designed to take the user experience to the next level. It delivers cost-effective integration and affordable performance for smart, connected, power-efficient devices that require graphics, vision, voice control, intelligent sensing and general-purpose processing.

THE EDGE is the latest e-newsletter from Future Electronics, and is geared toward engineers and buyers looking for new or leading-edge products. THE EDGE comes out twice per month, and each edition features product information, datasheets and videos showcasing the most advanced new technology in a specific area, such as sensing, lighting, or automotive.

Visit www.FutureElectronics.com/subscribe to receive the latest issues of THE EDGE newsletter, and stay up to date with the newest technologies. To see the entire portfolio of NXP products available through Future Electronics, visit www.FutureElectronics.com.

About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a comprehensive suite of passives and semiconductor products. Founded by Robert Miller in 1968, Future Electronics has over 5,500 employees and operates in 170 offices in 44 countries around the world. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®.
