

# Infineon OptiMOS<sup>®</sup> 6 MOSFETs Feature Optimized Layout & Higher Current Ratings

News-Press Release

Pointe Claire, Quebec, (Newsbox) 01-Mar-2021

<https://prsafe.com/release/13359/>

## Summary

Future Electronics has highlighted a newly-introduced half-bridge solutions by Infineon, the OptiMOS<sup>®</sup> 6 Power MOSFETs.

## Message

Montreal, Canada (prsafe ) March 1, 2021 - Future Electronics, a global leading distributor of electronic components, has featured the optimized layout and higher current ratings of the new Infineon OptiMOS<sup>®</sup> 6 Power MOSFETs.

The Infineon OptiMOS<sup>®</sup> 6 Power MOSFETs are a newly-introduced half-bridge solution optimized for cost efficiency and space saving with a compact 5mm x 6mm<sup>2</sup> SSO8 leadless package.

With the highest level of quality and durability for automotive applications, these 40V automotive MOSFETs provide enhanced routing for motor drive and body applications, while reducing space.

## About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a very extensive variety of electronic components. Founded by Robert G. Miller in 1968, Future Electronics believes its 5000 employees are its greatest asset, with 170 offices in 44 countries. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer<sup>®</sup>.
