## Summary

Future Electronics is featuring Laird Connectivity's Summit SOM 8M Plus in this month's edition of Sense Connect Control.

## Message

Montreal, Canada (prsafe ) July 20, 2022 - Future Electronics, a global leading distributor of electronic components, is featuring a powerful IoT System-on-Module from Laird Connectivity in the latest edition of Sense Connect Control.

The Summit SOM 8M Plus is a robust, secure and high-performance System-on-Module (SoM) built for the next generation of IoT designs.

The Summit SOM 8M Plus is powered by NXP's i.MX 8M Plus processor, and delivers reliable connectivity, global certification, a proven security architecture, long term software support, security peripherals and device management features.

PA/LNA provide excellent connectivity in difficult environments, plus enterprise support for better roaming, encryption, single SKU support, hardware LTE coex, and more. It supports up to 3 displays and features a 2.3 TOPS Machine Learning/Neural Processing Unit.

This advanced System-on-Module also comes with dedicated on-board security hardware, secure boot Linux, and a high-performance and flexible secure storage system for passwords, certificates, and data storage.

The Summit SOM 8M Plus is an ideal solution for a wide range of applications including smart buildings and appliances, robotics, industrial IoT and vision systems, printers and scanners, and medical devices.
