## Summary

Future Electronics is featuring Signify's Advance Xitanium LED Drivers in this month's Intelligent Lighting newsletter.

## Message

Montreal, Canada (prsafe ) August 30, 2022 - Future Electronics, a global leading distributor of electronic components, has featured indoor and outdoor LED drivers from Signify in the latest edition of Lighting newsletter.

Signify Xitanium LED drivers address the growing demand for controllability and flexibility with many configurable features such as a unique dimming interface, multiple output current choices, SimpleSet programming, ComfortFade and more. Many lighting applications require reliable drivers matching the long lifetime of their LEDs. Thankfully, the long-lasting and low-maintenance Xitanium LED drivers enable luminaire manufacturers to streamline logistics without compromising on performance. In addition, Xitanium LED drivers achieve remarkable energy savings and CO2 reductions with dimming.
