Summary

Future Electronics has showcased the Diodes Incorporated AH1390 Hall Effect Switch in the latest edition of THE EDGE.

Message

Montreal, Canada (prsafe) November 3, 2022 - Future Electronics, a global leading distributor of electronic components, is promoting the Diodes Incorporated AH1390 Hall Effect Switch in the latest edition of THE EDGE. This product features dual outputs for portable and battery-powered consumer equipment.

The DIODESâ„¢ AH1390 by Diodes Incorporated is a miniature micropower magnetic Unipolar Hall effect switch IC with dual outputs specifically designed for portable and battery powered consumer equipment to home appliances and industrial applications.

The latest feature of The EDGE promotes these devices as a capable and reliable option for designers working in IoT projects. As a trusted newsletter for industry trends, The EDGE's seal of approval helps engineers choose their parts with confidence to achieve their most ambitious designs.
