Saudi Arabia Automotive Market Trends, Opportunities and Challenges

Key trends and critical insights into Saudi Arabia Automotive markets along with key drivers, restraints and growth opportunities are presented in the report. Increasing adoptions of electric vehicles and spiking demand for advanced safety, connectivity, convenience and driver assist features are noted to shape the modern automotive industry in Saudi Arabia. Increasing battery efficiency and EV charging infrastructure, and handling chip Shortages are potential challenges for Auto Manufacturers. OEM manufacturers are planning to expand their production bases in Saudi Arabia. The government of Saudi Arabia also prioritizes the automotive segment as a key revenue generator and is encouraging the flow of FDIs in the automotive industry. Saudi Arabia is one of the most promising and fastest-growing automobile markets in the region. Saudi Arabia automobile industry is supported by multiple factors such as labor availability, R&D efforts, geographic advantage and government support. With a positive outlook for the economy and greater household purchasing power, automobile sales in the country are set to witness a strong surge in sales by 2030. Saudi Arabia Automotive Market Competitive Landscape

The report analyses key players in the Saudi Arabia Automotive Market with detailed SWOT and financial analysis and their strategies for 2030. New players continue to foray into the market, in particular in the low-price vehicle segment with the number of sales increasing at robust growth rates. Passenger cars and light commercial vehicles are also witnessing a steady increase in demand. The ongoing trend towards modernization and automation of Automotives to electric and hybrid cars, growth from emerging economies- compensating decline from mature markets, the focus is on the user, increasing penetration of autonomous vehicles, and others are supporting countries worldwide to strengthen their Automotive markets.

However, increased risk of new disruptive business models, falling margins and rising investment, long-term market volatilities, and vehicle retreats from globalization pose significant challenges to growth. Cost-effective models tend to witness strong success as the majority of car buyers segment includes the middle class. Further, strong customer support and availability of cheap spare parts gain high priority for purchases in the cars segment The Saudi Arabia Automotive Market research identifies that the competition continues to intensify year-on-year with the introduction of new models and brand availability. The global automotive market is poised to register strong growth with light vehicle sales increasing from around 95 million to over 106 million between 2019 and 2025. Saudi Arabia Automotive market is compared against five of its competitive markets in the region to analyze the role of Saudi Arabia on the regional front and benchmark its operations. Global Automotive, Asia Pacific, Europe, Middle East Africa, North America and Latin America Automotive market outlook is also presented in the report to provide a global perspective of the industry.
