Summary

Future Electronics is celebrating Kim Charlebois for reaching her 25th milestone service anniversary with the Company.

Message

Montreal, Canada (prsafe) March 26, 2024 - Future Electronics, a leading global distributor of electronic components, is congratulating Kim Charlebois for her 25 years of service with the organization.

[Kim joined Future Electronics](#) in 1999. "My first position was in a lively sales department called "Disty" in a Sales Support and Customer Service role. The group was very close and felt like a family. I am so lucky to still be working with many of these people today," says Kim.

As the department and sales increased, Kim took on the role of Sales Executive. "I was able to hone my sales skills and grow an account base in the Global Call Centre that allowed me to join the Eastern Canada sales team managing a larger portfolio of OEM's and CMs, where I am to this day. Many of my accounts I have serviced for over 15 years due to the strong relationships I have created."

Kim studied Leisure and Recreation and Concordia University. She has applied this knowledge to organizing events and holiday parties for the sales teams at the Montreal head office. "Concordia did not prepare me for how much fun I would have organizing these festivities at Future Electronics!" says Kim.

Over her 25 years with the company, Kim has stood out as a dedicated team member with a positive attitude. She has forged countless strong relationships within the company as well as externally through her sales experience.

Outside of work, Kim enjoys travelling, real estate, sports, and trying new restaurants. "I'm always ready to hop on a plane to a new adventure," she says. Kim's motto: "Always try to live your best life!"

"I am so fortunate to have worked with so many great people at Future Electronics. I am grateful for the friendships made throughout these 25 years!" says Kim.

[Future Electronics thanks Kim](#) for her dedication to the Company these past 25 years, and looks forward to many more successful years to come.
