Summary

Future Electronics is featuring the Signify MasterConnect System in a recently launched digital campaign.

Message

Montreal, Canada (prsafe) September 2, 2024 - Future Electronics, a global leading distributor of electronic components, is featuring Signify's MasterConnect LLLC System in a digital campaign.

The MasterConnect system enables you to create connected lighting installations that are simple and scalable, with no hassle during installation and commissioning. Their reliable wireless platform and products offer you the opportunity to tap into all the benefits of connected lighting, like automation, human-centric lighting or energy savings.

Combined with LED lighting, the Luminaire-level lighting controls (LLLC) system offers significant savings: up to 40% compared to non-controlled LED lighting and up to 75% compared to conventional lighting.

About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer®. For more information visit www.FutureElectronics.com.
