Summary

Future Electronics, a leading global distributor of electronic components, has launched a new campaign showcasing the STM32 Series of Microcontrollers (MCUs) from STMicroelectronics.

Message

Montreal, Canada (prsafeÂ) September 4, 2025 - Future Electronics, a leading global distributor of electronic components, has launched a new campaign showcasing the STM32 Series of Microcontrollers (MCUs) from STMicroelectronics.

The STM32 series of scalable 32-bit ArmÂ® CortexÂ® microcontrollers delivers developers the performance and flexibility needed to bring innovative designs to life. Offering a unique balance of real-time processing, low-power efficiency, digital signal control, and integrated connectivity, STM32 MCUs are ideal for applications across consumer, industrial, medical, and IoT markets.

With one of the industry's most comprehensive portfolios, the STM32 family spans from entry-level devices to high-performance MCUs, all supported by a robust ecosystem of development tools and software. This makes it easy for engineers to scale their projects, reduce time-to-market, and streamline the design process.

Future Electronics' new campaign page features a complete table of the STM32 product family, giving customers a convenient way to browse the entire portfolio and explore solutions tailored to their design requirements.

Customers can explore the full STM32 lineup and development resources by visiting the campaign page here:

About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the CustomerÂ®. For more information visit www.FutureElectronics.com.
