## Summary

Future Electronics & Infineon's free webinar on Sept 25 to explore how PSOC<sup>®</sup> Edge powers next-gen smart HMIs with AI, voice & gesture control.

## Message

Montreal, Canada (PRSAFE) September 12, 2025 - Future Electronics, a leading global distributor of electronic components, is pleased to announce an upcoming free webinar hosted in collaboration with Infineon Technologies: Unlock Innovation with PSOC<sup>®</sup> Edge for Next-Gen Smart HMIs.

The live session will take place on Thursday, September 25, 2025, from 1:00 - 2:00 PM EDT / 10:00 - 11:00 AM PDT, featuring Omar Cruz, Senior Manager PSOC<sup>®</sup> Edge at Infineon Technologies, as the keynote speaker.

As Human-Machine Interface (HMI) technology evolves, designers face increasing demand for more intelligent, adaptive, and seamless user experiences. Infineon's PSOC<sup>®</sup> Edge platform is purpose-built to meet these challenges, enabling advanced features and powering the next generation of smart HMI solutions.

During this exclusive webinar, attendees will learn how PSOC<sup>®</sup> Edge can:

- Enable advanced gesture and voice command recognition
- Personalize user interactions with on-device machine learning
- Improve system efficiency and reduce power consumption at the edge
- Accelerate time to market with robust software and development tools

Whether for consumer electronics, industrial control panels, or automotive systems, PSOC<sup>®</sup> Edge delivers the intelligence and adaptability required to create more intuitive and competitive products.

Registration is now open. Designers, engineers, and product developers are encouraged to reserve their spot to explore how Infineon's PSOC<sup>®</sup> Edge can transform their next HMI design.

## About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer<sup>®</sup>. For more information visit [www.FutureElectronics.com](http://www.FutureElectronics.com).
