Summary
Future Electronics hosted a Thanksgiving lunch for over 700 employees at its Montreal headquarters, expressing the spirit of gratitudeâ€”and giving through donations from its Build Hope Together charitable foundation to six community organizations.

Message
Montreal, Quebec (prsafeÂ) October 9, 2025 -Â Future Electronics, a global leader in electronic components distribution, celebrated Thanksgiving with a company-wide lunch that brought together more than 700 employees to share a meal and reflect on the season of gratitude.
As part of the event, Future Electronics' charitable foundation, Build Hope Together, made generous contributions to six nonprofit organizations that serve women, children, and families in need: Le ChaÃ®non, Shield of Athena, West Island Community Shares, Fondation Charles-Bruneau, Fondation des Gouverneurs de l'Espoir, and the Roger Neilson House.

The event was attended by senior executives from Future Electronics, alongside representatives from each charity, further demonstrating the company's ongoing commitment to supporting the communities in which it operates.

"Thanksgiving is a moment to pause and appreciate all that we haveâ€”and to share that gratitude by giving back," said Jamie Singerman, Corporate Vice President at Future Electronics. "Through Build Hope Together, we are proud to support organizations that make a meaningful difference in the lives of children, families, and women at risk."

The Build Hope Together foundation was established in 2024 to empower Future Electronics employees to play an active role in philanthropy. Each year, employees are invited to nominate organizations for funding, with final selections made by a committee of executives and employee representatives. The foundation's mission reflects Future Electronics' culture of compassion, collaboration, and community leadership.

By hosting this event and continuing its charitable efforts, Future Electronics reaffirms its dedication to creating positive impactâ€”both within the company and beyond.
