Summary

Future Electronics, a leading global distributor of electronic components, is proud to announce the launch of a new digital campaign spotlighting Micron's™ industry-leading DRAM and NOR flash memory portfolio designed to accelerate innovation across demanding markets.

Message

Montreal, Canada (prsafe) October 17, 2025 - Future Electronics, a leading global distributor of electronic components, is proud to announce the launch of a new digital campaign spotlighting Micron's industry-leading DRAM and NOR flash memory portfolio designed to accelerate innovation across demanding markets.

Micron, a global pioneer in memory and storage technology, delivers high-performance DRAM components and reliable NOR flash solutions that power designs across industrial, automotive, consumer, and enterprise platforms. With a commitment to quality and endurance, Micron's memory solutions are built to perform in the toughest environments, helping engineers reduce time to market while maintaining long-term reliability.

The campaign will highlight Micron's octal, serial, and parallel NOR flash options, alongside high-speed DRAM products engineered to meet extreme performance requirements. Future Electronics invites customers to discover how Micron enables secure, high-speed data handling in next-generation designs.

Designers are invited to explore the full selection and build a stronger foundation for their next innovation through Future Electronics' [dedicated campaign web page](#).

About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer®. For more information visit www.FutureElectronics.com.
