Summary

Future Electronics, a leading global distributor of electronic components, will host its Tech Day event in Xi'an™ this November.

Message

Xi'an, China (prsafe) October 30th, 2025 - Future Electronics, a leading global distributor of electronic components, will host its Tech Day event in Xi'an this November.

Under the theme "Driving Industrial Innovation for the Future", the event will focus on key application areas, including industrial control, motor drives, industrial automation, and industrial power, bringing together industry partners to discuss the latest technology trends and innovative solutions in the industrial sector.

Several internationally renowned component manufacturers, including onsemi, Power Integrations, TE Connectivity, NXP, and RECOM, will showcase their latest electronic component products and solutions on-site. The demonstrations will cover cutting-edge industrial applications ranging from high-efficiency power management to intelligent drive control, supporting the high-quality development of China's industrial and smart manufacturing industries.

Event Information:

Date: Thursday, November 6, 2025

Registration: 12:30 - 13:00

Conference: 13:00 - 17:55

Location: Xi'an, China

The event invites manufacturers, system integrators and solution providers in industrial and smart manufacturing to participate.
