## Summary

Future Electronics's Build Hope Together foundation made a charitable contribution to Roger Neilson Children's Hospice, supporting the organization's mission to provide compassionate palliative and grief care for children, youth, and families.

## Message

Montreal, Quebec (PRsafe) November 14, 2025 - Future Electronics, a global leader in electronics distribution, continued its commitment to giving back through its Build Hope Together foundation with a recent donation to Roger Neilson Children's Hospice, a specialized facility offering comprehensive pediatric palliative and grief care to children and their families.

Located in Ottawa, Roger Neilson Children's Hospice provides essential support services including respite care, symptom management, end-of-life care, grief counseling, memory-making, and sibling support. Its mission is simple yet profound: to enrich the quality of every life – no matter how short.

Representatives from Roger Neilson Children's Hospice attended Future Electronics' annual Thanksgiving luncheon, where the company's leadership reaffirmed its dedication to improving lives and supporting organizations that bring hope to families facing life's most difficult challenges.

Through its contribution, Future Electronics helps ensure that every grieving child and family can access the compassionate, high-quality care they deserve.

Through Build Hope Together, employees at Future Electronics play a direct role in identifying and supporting charitable organizations that make a meaningful difference in their communities. The donation to Roger Neilson Children's Hospice continues the company's mission to empower, uplift, and inspire through collective action.
