## Summary

Future Electronics, a global leader in electronic component distribution, has launched a new quarterly digital campaign exploring the latest trends and technologies in Energy Innovation.

## Message

Montreal, Canada (prsafe) January 19, 2026 - Future Electronics, a global leader in electronic component distribution, has launched a new quarterly digital campaign exploring the latest trends and technologies in Energy Innovation.

Energy innovation is entering a new phase defined not just by cleaner power, but by smarter, more adaptive systems. From e-mobility and EV charging to breakthroughs in energy storage, renewable generation, and smart grid infrastructure, the energy ecosystem is accelerating toward greater connectivity, efficiency, and resilience.

This quarter's campaign highlights how advanced sensing, connectivity, and control technologies are reshaping how energy is generated, delivered, and managed. Engineers, designers, and innovators can access insights, components, and expertise to develop data-driven, predictive solutions that address today's energy challenges and enable tomorrow's opportunities.

Follow the campaign to explore real-world applications, industry trends, and the tools needed to transform bold energy ideas into actionable solutions.

## About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer®. For more information visit [www.FutureElectronics.com](http://www.FutureElectronics.com).
