Summary

Future Electronics, a global leading distributor of electronic components, today announced the launch of a new digital campaign highlighting the Amphenol Sine Systems ecomate® family of circular multiway connectors, engineered for reliable performance in demanding industrial and outdoor environments.

Message

Montreal, Canada (prsafe) February 12, 2026 - Future Electronics, a global leading distributor of electronic components, today announced the launch of a new digital campaign highlighting the Amphenol Sine Systems ecomate® family of circular multiway connectors, engineered for reliable performance in demanding industrial and outdoor environments.

The ecomate® family delivers exceptional durability, safety, and flexibility for power and signal applications across a wide range of industries. Designed with robust plastic or metal housings, these connectors support multiple coupling options including circular bayonet, quick-locking automatic, and rapid coupling systems, enabling secure and efficient connections even in harsh operating conditions.

Featuring IP65 through IP69K protection in the mated condition, ecomate® connectors are built to withstand exposure to dust, moisture, and high-pressure washdowns. The series supports amperage ratings up to 300 A and voltage levels up to 1000 V, making it well suited for applications that demand high current capacity and dependable connectivity.

This digital campaign provides engineers and buyers with detailed product information, application insights, and technical resources to support design and sourcing decisions for rugged connectivity solutions.

The Amphenol Sine Systems ecomate® circular multiway connectors are available now from Future Electronics. To learn more about the campaign and explore the full product offering, visit the [dedicated campaign page](#).

About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer®. For more information visit www.FutureElectronics.com.
