## Summary

Future Electronics, a global leader in electronic components distribution, successfully showcased its extensive portfolio of embedded solutions at embedded world 2026, held from 10 to 12 March 2026 in Nuremberg, Germany.

## Message

Montreal, Canada (prsafe) March 18, 2026 - Future Electronics, a global leader in electronic components distribution, successfully showcased its extensive portfolio of embedded solutions at embedded world 2026, held from 10 to 12 March 2026 in Nuremberg, Germany.

As one of the premier international platforms for the embedded community, embedded world brought together industry experts, key players, and associations from around the globe. During the three-day event, Future Electronics demonstrated innovations spanning components, modules, operating systems, hardware and software design, M2M communication, services, and complex system integration.

Visitors to the Future Electronics booth experienced interactive demonstrations and focused Technology Pods highlighting advancements in performance optimization, connectivity, energy efficiency, system safety, and advanced processing. The showcase emphasized the complete embedded ecosystem, from individual components to fully integrated system solutions.

Engineers, system architects, and product managers engaged directly with Future Electronics' technical specialists, discussing specific application requirements, design challenges, and supply chain considerations. Attendees received practical guidance tailored to their projects, benefiting from the company's deep technical expertise and global logistics capabilities.

Participation in embedded world 2026 underscores Future Electronics' commitment to empowering the embedded community with leading technologies, engineering support, and global distribution resources. The event also provided an ideal environment for knowledge exchange, trend exploration, and building lasting business relationships within the international embedded industry.

## About Future Electronics

Founded in 1968, Future Electronics is a global leader in the electronic components industry. Future Electronics' award-winning customer service, global supply chain programs and industry-leading engineering design services have made the company a strategic partner of choice.

Headquartered in Montreal, Canada, Future Electronics operates in 159 offices across 44 countries with over 5,000 employees. Its worldwide presence powers the company's outstanding service and efficient, comprehensive global supply chain solutions. Future Electronics is globally integrated and supported by one IT infrastructure which provides real-time inventory availability and enables fully integrated operations, sales and marketing services worldwide. In 2024, Future became a WT Microelectronics company, now dual-headquartered in both Montreal, Canada and Taipei City, Taiwan.

Future Electronics' mission is always to Delight the Customer®. For more information visit [www.FutureElectronics.com](http://www.FutureElectronics.com).
