

# ON Semiconductor NCV7446 Dual CAN FD Transceiver Featured by Future Electronics

News-Press Release

Pointe Claire, (Newsbox) 07-Aug-2020

<https://prsafe.com/release/12877/>

## Summary

Future Electronics is featuring the ON Semiconductor NCV7446 Dual CAN FD Transceiver for automotive applications in the latest edition of their Transportation newsletter.

## Message

Future Electronics, a global leading distributor of electronic components, is featuring the ON Semiconductor NCV7446 Dual CAN FD Transceiver in the latest edition of the Transportation newsletter.

[ON Semiconductor's NCV7446](#) is a high speed, low power Dual CAN FD Transceiver allowing differential interfacing of two independent CAN physical buses and controllers, with timing specs enabling data rates beyond 1Mbps. The NCV7446 features very low current standby mode with wake-up via the bus plus thermal shutdown. The DFNW-14 packaged device is compatible with ISO 11898:2016 and is AEC-Q100 qualified, well suited for automotive networks.

Stay on top of all the newest trends in transportation technology thanks to our Transportation newsletters. Geared toward engineers and buyers looking for new or leading-edge products, each edition is packed with product information, datasheets or videos showcasing the most advanced new technology.

Visit [www.FutureElectronics.com/subscribe](http://www.FutureElectronics.com/subscribe) to receive the latest issues of the Transportation newsletter and always stay up to date with the latest innovations of the technology world. ## About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a comprehensive suite of passives and semiconductor products. Founded by Robert Miller in 1968, Future Electronics has over 5,500 employees and operates in 170 offices in 44 countries around the world. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®.
