

# Power Semiconductor Market in I4 Industry to grow by \$ 10.48bn | Technavio

News-Press Release

Alaska (Newsbox) 02-Mar-2022

<https://prsafe.com/release/14184/>

## Summary

The power semiconductor market size is expected to grow by \$ 10.48 bn during 2022-2026, progressing at a CAGR of 8.03%.

## Message

The power semiconductor market size is expected to grow by \$ 10.48 bn during 2022-2026, progressing at a CAGR of 8.03%. The report provides thorough insights on the COVID-19 impact on the market and new business opportunities, if any, during the pandemic period. According to Technavio research experts, we expect the impact to be significant during the first quarter, which should gradually alleviate in subsequent quarters with a limited impact on the full-year economic growth.

Technavio offers an up-to-date analysis of the current global market scenario and the overall market environment - [Download Free Sample Report](#). Power Semiconductor Market Trends & Drivers The [power semiconductor market](#) research report has a detailed analysis on the key drivers, trends, and challenges, which will help vendors in making important business decisions and modifications to cater to the changing consumer demand. While it is essential to capitalize on key drivers such as increasing electrification in vehicles, it is also crucial to understand the challenges that will impede sales during the forecast period. Identifying and addressing market growth challenges will create additional opportunities for the existing and new market players. Know more about COVID-19 Crisis and Recovery Analysis? [Request Free Sample Research Report](#) The power semiconductor market has also explored key trends such as increased demand for vehicles that operate on alternative fuels, which will have a significant positive impact on the market growth over the forecast period. A thorough study of the market trends will enable vendors to understand demographics effectively, which can be used to further product and service innovation. Register for a free trial today and gain instant access to 17,000+ market research reports [Power Semiconductor Market: Segmentation Analysis](#) This market research report segments the [power semiconductor market](#) by Application (Automotive, Industrial power control, and Others) and Geography (APAC, Europe, North America, South America, and MEA). The APAC region led the power semiconductor market in 2022, followed by Europe, North America, South America, and MEA respectively. During the forecast period, the APAC region is expected to register the highest incremental growth due to factors such as . Technavio's sample reports are free of charge and has exclusive competitive intelligence insights about market players. The sample report highlights the crux of key industry trends, opportunities, and threats. Get a glimpse of the various marketing, branding, strategy making, and market development approaches.
