The Paediatric Consumer Health Market Database in Saudi Arabia is projected to exhibit highest growth rate over report offers a collection of superior market research, market analysis, and competitive intelligence and industry reports. One of the actions the Saudi government took to limit the spread of COVID-19 was to close all school and universities (with only remote learning permitted) and to suspend all social and community activities for children, including sports. Parks were closed, whilst social gatherings of more than five people were prohibited. In addition, children aged below 15 years old were banned from entering shopping centres. This carefully coordinated and strictly enforced raft of restrictions had the effect...
