Summary

Plymouth Pediatric Associates (â€œPPAâ€•) is pleased to announce the launch of a new Urgent Care model that offers patients visits for illness or injury that is overseen by a dedicated physician.

Message

Plymouth, MA, November 11, 2022 -- Plymouth Pediatric Associates (â€œPPAâ€•) is pleased to announce the launch of a new Urgent Care model that offers patients visits for illness or injury that is overseen by a dedicated physician. Unlike other pediatric clinics, PPAâ€™s model creates a more cohesive healthcare experience for urgent visits. Dr. Marietta Calisto-Cooney, a long-time physician at PPA, is leading the new model. â€ Dr. Calisto-Cooney has shifted her focus to the support and oversight of the Urgent Care team, allowing her passion for educating to shine. This new Urgent Care model is staffed by a team of nurse practitioners and the lead physician. With this approach, Dr. Calisto-Cooney has the flexibility to spend more time with patients and their families and provide assistance for more complicated situations. Most importantly, with PPAâ€™s mission to treat the whole child, Dr. Calisto-Cooney now acts as the bridge between the patient's primary care physician and the Urgent Care team, developing a seamless patient experience. â€This is my opportunity to marry my two passions together, caring for my patients and teachingâ€, Dr. Calisto-Cooney said. â€Our staff truly bends over backward for patients and will go above and beyond in many cases. Our culture, as a whole, is supportive and caring, which makes PPA stand out to me. It feels great to be a part of this team and know that your peers are on the same page as you.â€•â€ For Plymouth Pediatric Associates, this unique Urgent Care model is the newest addition to the specialty services they provide. As the region's only Preferred Boston Childrenâ€™s Primary Care Practice, PPA provides patients and their families access to a large network of specialists, leading research, and treatments. Urgent care appointments are available 363 days a year at PPA. The facility has a separate waiting area and separate exam rooms used solely for urgent care. Located at 148 Industrial Park Road in Plymouth, their patients are welcomed into a state-of-the-art building and comfortable open area dedicated to their needs.â€• Plymouth Pediatric Associates puts the individual first and is committed to bringing the best, individualized treatment plan to each patient and family. Providing extraordinary care, close to home. â€ For over 70 years, Plymouth Pediatric Associates has been providing Plymouth, Sandwich, and the surrounding communities with full-service, primary care for newborns to young adults. Offering services from Routine Physicals, same-day Urgent Care, Immunizations, and Integrated Behavioral Health.â€• â€ For more information, visit <https://www.plymouthpediatricassociates.com>
