In his inspirational TEDx Talk, "From Human Being to Human Becoming", Coach and author, Fraser Hay shares a powerful and practical 3 step process to face and overcome difficult challenges and decisions. Get help to embrace stress, struggle or limitation, to prevent yourself from stagnating and to become what you choose next to achieve in 2023 and beyond.

When asked about his inspirational TEDx Talk, "Many people are struggling in the current economic climate to embrace their own personal and commercial challenges in addition to rising living costs, interest rates and inflation. My vision is to help individuals, entrepreneurs, and business owners to identify what's holding them back and preventing the results they want. I offer practical solutions to help prevent them from stagnating to become what they choose next on their journey and, to create and live their vision for their life, career or business" replied Fraser Hay, the founder of www. itstacksup.com.

Hay has spent the last 20 years making and embracing many hard, and difficult decisions and he has documented over two thousand entrepreneurial issues, challenges and obstacles on his own entrepreneurial journey. He shares examples, case studies and solutions on his TEDx talk and in his books on Amazon, his keynotes on 4 continents, and unique coaching offerings available on his website.

"The Covid-19 Pandemic and global economic uncertainty of the last 3 years have caused many businesses to close their door and created a new breed of entrepreneur wanting to work from home: h@ppeneur Â® n. someone who plans, documents, executes & automates their marketing online to start, grow a business and to achieve their personal goals and objectives." commented Hay.

No matter what you want to become in 2023, Hay believes he can help and offers a FREE book "The art of becoming a h@ppeneurÂ®" to help you adopt the right mindset for the year ahead said the spokesperson of Itstacksup.com.

Hay believes that the meaning of life is to discover your gift and that the purpose of life is to share it. However, many people need four things:

1. To adopt the right MINDSET to embrace current and future challenges

2. Document their own STRATEGY to give themselves a practical plan of action

3. EXECUTE their plan, measure their progress daily and share their progress

4. AUTOMATE processes where possible to reduce stress and make life easier

In starting with step 1, Fraser is offering his book "The art of becoming a h@ppeneurÂ®" for FREE to help individuals get 2023 off to a flying start and offers additional help, guidance and support on his website to help you maintain momentum and achieve your
