Summary
Miller to focus on health and address allegations raised in CBC program.

Message
Montreal, Quebec (prsafe) February 3, 2023 - Future Electronics today announced that - despite not being involved in the day to day operations for a number of years - Chairman, President and CEO Robert G. Miller will permanently step down to focus on his very serious health issues and devote his attention to pursuing legal action related to allegations made by the CBC.

Mr. Miller adamantly and vehemently denies the malicious allegations made against him, and confirms they are false and wholly unsubstantiated and that they arose as a result of a bitter divorce. They are now being repeated for financial gain. A police investigation was conducted into these allegations and the authorities determined that they were unfounded. Mr. Miller will take all measures to vigorously pursue legal action against those whom he categorically believes to have set out to malign his character.

Effective immediately, Omar Baig assumes the role of President and CEO.

About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a very extensive variety of electronic components.
