Summary

The Current, Future Electronics'™ popular video podcast series has returned for a third season.

Message

Montreal, Canada (prsafe) May 23, 2023 - The renowned video podcast The Current by Future Electronics is back for a third season on all major podcast platforms as well as YouTube.

Featured in Business Insider, The Current is an application technology podcast that has gained the audience trust and loyalty over the first two seasons thanks to its engaging talks with industry-leading engineers on trending topics around the semiconductor industry.

Each episode unpacks new, fast-growing, and exciting technologies, applications, and design techniques in entertaining discussions with renowned experts.

The host is Todd Baker, corporate vice-president of Engineering at Future Electronics, known across the industry for his experience of over 20 years in the semiconductor field, and his ability to digest and communicate the more complex topics and trends.

Listen to all episodes and stay up to date with the latest news to spearhead the industry with Future Electronics. Find all you need here: www.FutureElectronics.com/blog/the-current-vodcast.
