Summary

Future Electronics and NXP will host an Industrial Seminar on August 27, 2024, at Kokerei Hansa in Dortmund, focusing on Motor Control, Motion Control, and Industrial Security.

Message

Frankfurt, Germany (prsafe) August 12, 2024 - Future Electronics, a leading global distributor of electronic components, will be collaborating with NXP to present an Industrial Seminar at the historic Hansa Coking Plant in Dortmund, Germany.

The seminar will take place on August 27, 2024, in the historic Compressor Hall of the Hansa plant, providing an inspiring setting for a day filled with insightful presentations and demonstrations of NXP's portfolio for industrial applications.

The morning session will focus on motor and motion control, with [presentations from Future Electronics](#) and NXP on industrial motor control with the MCX family and toolset, as well as industrial motion control, human-machine interfaces (HMIs) and programmable logic controllers (PLCs) (namely i.MX processors, RT processors, and NAFE components). The afternoon will delve into industrial security, covering updates on how NXP is making microcontroller units and processors (MCUs and MPUs) secure, and ensuring industrial IoT security.

Attendees will have the opportunity to engage with [experts from Future Electronics](#) and NXP throughout the day. The event includes a welcoming coffee session and lunch break, with multiple opportunities for networking and discussions throughout the day. The seminar will conclude with a feedback session, farewell, and a guided tour of Kokerei Hansa, allowing participants to explore the historically significant venue.

Join Future Electronics and NXP to explore the past of Kokerei Hansa and the future of industrial applications in a professional and innovative atmosphere. This event promises a comprehensive overview of current and future technologies in industrial motor control and security.
