### **Summary**

Future Electronics is featuring the STMicroelectronics Teseo-LIV3F Global Navigation Satellite System (GNSS) Module in a recent newsletter.

### **Message**

Montreal, Canada (prsafe ) January 26, 2021 - Future Electronics, a global leading distributor of electronic components, is featuring the RECOM RPX-1.0/1.5 high power buck converters as part of the company's large inventory of available-to-sell electronic components.

Featuring a compact 3mm x 5mm x 1.6mm thermally-enhanced QFN package, the RECOM RPX-1.0/1.5 are high power buck converters with integrated shielded inductors and flip-chip technology for improved thermal management. Both converters enable power good, soft start and sync functions for a variety of Industrial Internet of Things (IIoT) applications.

To learn more about the RPX-1.0 and 1.5 as well as their associated evaluation kits, visit [www.FutureElectronics.com/resources/featured-products/recom-rpx-1-0-1-5-buck-converter](http://www.FutureElectronics.com/resources/featured-products/recom-rpx-1-0-1-5-buck-converter).

Stay on top of all sensing and connectivity information in Sense Connect Control, your go-to e-newsletter by Future Electronics. Each edition is packed with product information, datasheets or videos showcasing the most advanced new sensing and connectivity solutions.
