

Future Electronics Offers Low Profile Alternative to Panasonic PIR Motion Sensor Product Lineup

News-Press Release

Pointe Claire, (Newsbox) 15-Feb-2021

<https://prsafe.com/release/13329/>

Summary

Future Electronics has featured the latest additions to Panasonic's portfolio of PIR Motion Sensors in a recent newsletter.

Message

Future Electronics, a global leading distributor of electronic components, is offering a lower profile alternative to Panasonic's extensive range of PIR Motion Sensors.

The New "Low Profile" PIR Motion Sensors feature a one-chip ASIC design which is superior to discrete solutions by saving space, adding electro-magnetic shielding to all circuitry and cutting down on the number of components required.

Stay on top of all sensing and connectivity information in Sense Connect Control, your go-to e-newsletter by Future Electronics. Each edition is packed with product information, datasheets or videos showcasing the most advanced new sensing and connectivity solutions.

Visit www.FutureElectronics.com/subscribe to receive the latest issues of Sense Connect Control newsletter and always stay up to date with the latest innovations of the technology world.

About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a very extensive variety of electronic components. Founded by Robert G. Miller in 1968, Future Electronics believes its 5000 employees are its greatest asset, with 170 offices in 44 countries. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®.
