Summary

Robert Miller, President of Future Electronics, congratulated the company's Irvine, California branch, which is celebrating its 25th anniversary this year.

Message

Montreal, Canada (prsafe) May 07, 2021 - Future Electronics, a global leading distributor of electronic components, recently celebrated the 25th anniversary of the company's office in Irvine, California.

Future Electronics was founded in Montreal in 1968 by company [President Robert Miller](#). It expanded into the United States in 1972, opening its first American office in Boston.

The Irvine branch first opened its doors in 1996. "While many things have changed over the years since our opening, our principles have stayed strong," said General Manager Tony Lagnese.

Irvine is one of the top technology markets in the world, with a diverse range of industries including industrial, medical, aerospace, consumer, and automotive.

The Future Electronics Irvine team has built longstanding relationships with established customers, some of whom have been there since the branch's founding, and in recent years they have helped innovative new customers as they enter the market.

The team is well balanced, boasting several members with over 20 years of service as well as more recent FAI members who are forging new relationships.

"We take pride in developing deep relationships with our customers," Lagnese said. "We work to understand our customer's individual objectives and find ways to leverage the unique value of Future Electronics to enable their growth. This approach is unchanged from our founding and will continue to fuel our branch's success."

[Robert Miller, President of Future Electronics](#), congratulated the Irvine team on their 25-year milestone, and thanked everyone for their contributions to the success of the branch.
