Summary

Future Electronics and Infineon are launching a new portal focused on Smart Building Solutions.

Message

Montreal, Canada (prsafe) May 6, 2022 - Future Electronics, a global leading distributor of electronic components, and Infineon, a world leader in semiconductor solutions, are launching a new web portal focused on intelligent and connected building solutions.

The Smart Building Solutions portal is a new collaboration between Future and Infineon. It features a wide range of products and technologies from Infineon's full-spectrum portfolio which can transform connected buildings into smart buildings.

These include cutting-edge solutions for condition monitoring and predictive maintenance, heating ventilation and air conditioning (HVAC), automatic entry systems and surveillance, LED lighting and controls, Power over Ethernet, and programmable logic controllers for home and building automation.

The Smart Building Solutions portal is an excellent starting point for designers and engineers who are looking to maximize the security, efficiency and performance capabilities of today's connected buildings.

Visit the new Smart Building Solutions portal at <https://www.futureelectronics.com/resources/promotions/infineon202204?loc=3> .

To learn more about Future Electronics, and to access the complete portfolio of Infineon products, visit <https://www.futureelectronics.com/?loc=3> .

About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a comprehensive suite of passives and semiconductor products. Founded by Robert Miller in 1968, Future Electronics has over 5,500 employees and operates in 170 offices in 44 countries around the world. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®.
