Summary

Robert Miller, President of Future Electronics, congratulated the company's Long Island branch, which is celebrating its 35th anniversary this year.

Message

Montreal, Canada (prsafe) June 17, 2022 - Future Electronics, a global leading distributor of electronic components, recently celebrated the 35th anniversary of the opening of the company's office in Long Island, New York.

Future Electronics was founded in Montreal in 1968 by [company President Robert Miller](#). It expanded into the United States in 1972, opening its first American office in Boston.

Future's Long Island branch first opened its doors in 1987. The office is located just off Veterans Memorial Highway in Hauppauge, making it very accessible to the area's suppliers and customer base.

[Future Electronics Long Island](#) benefits from a very knowledgeable team, with a combined 195 years of experience in the electronic industry. "We motivate and challenge each other every day," said General Manager Kim Babski. "We're committed to maintaining our position as the industry leader by leveraging our global supply chain solutions, as well as our engineering resources."

The pandemic and the ongoing semiconductor shortage have made for challenging times, but Future has been diligent in supporting customers with product and has been proactive in ensuring the stability of the supply chain.

The success of the Long Island branch is rooted in their commitment to finding the best solution for their customers, year after year. "We are an extension of our customers," Babski said. "Their goals are our goals."

[Robert Miller, President of Future](#) Electronics, congratulated the Long Island team on their 35-year milestone, and thanked everyone for their contributions to the success of the branch.
