## **Summary**

Future Electronics has featured the Bosch Sensortec BHI260AP AI Smart Sensor in the latest edition of THE EDGE.

## **Message**

Montreal, Canada ( prsafe) November 4, 2022 - Future Electronics, a global leading distributor of electronic components, is promoting the BHI260AP Smart Sensor by Bosch Sensortec in the latest edition of THE EDGE. This device also features an integrated IMU.

The BHI260AP is an ultra-low power, customizable smart sensor consisting of Bosch Sensortec's new, programmable 32-bit microcontroller (Fuser2), a state-of-the-art 6-axis IMU (3-Axis Accelerometer + 3-Axis Gyroscope) and a powerful Event-driven Software Framework containing pre-installed sensor fusion and other sensor data processing software within a small 44 pad LGA package.

The latest feature of The EDGE promotes these devices as a capable and reliable option for designers working in IoT projects. As a trusted newsletter for industry trends, The EDGE's seal of approval helps engineers choose their parts with confidence to achieve their most ambitious designs.

To learn more about the BHI260AP Smart Sensor by Bosch Sensortec, visit

## **About Future Electronics**

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a very extensive variety of electronic components. Founded by Robert G. Miller in 1968, Future Electronics believes its 5500 employees are its greatest asset, with 170 offices in 44 countries. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®.
