Summary

Future Electronics is featuring the PAN1781 Bluetooth® Low Energy (BLE) Module in this month's edition of Sense Connect Control.

Message

Montreal, Canada (prsafe) December 12, 2022 - Future Electronics, a global leading distributor of electronic components, is featuring the PAN1781 Bluetooth® Low Energy (BLE) Module in the latest edition of Sense Connect Control. This device is a flexible and secure solution that is highlighted for its lightning-fast connectivity.

The PAN1781 Bluetooth® Low Energy (BLE) Module based on the Nordic nRF52820 single chip controller. This device features LE 2 Mbps high speed PHY and LE long range coded PHY as well as LE secure connections, being an ideal solution for long range IoT applications. In addition, the PAN1781 Series ultra-low current consumption makes it an optimal choice for battery powered devices.
