Summary

Future Electronics is featuring the Microchip PIC32CX-BZ2 family in this month's edition of Sense Connect Control.

Message

Montreal, Canada (prsafe) December 13, 2022 - Future Electronics, a global leading distributor of electronic components, is featuring the Microchip PIC32CX-BZ2 family of wireless MCUs in the latest edition of Sense Connect Control. This series is highlighted for its superior versatility as it supports multi-protocol devices in a single powerful solution.

The Microchip PIC32CX-BZ2 family features the latest Bluetooth Low Energy specification 5.2 with industry leading security and a Zigbee® stack. This versatile series is suited for general purpose and is characterised as a low-cost, 32-bit Microcontroller (MCU). With a fully RF-certified wireless module and a high-performance 2.4 GHz radio integration, this is a series to consider for industrial and home automation applications.
