## Summary

Future Electronics has released a worldwide initiative operating under the banner "Energy Innovation."

## Message

Montreal, Canada ( prsafe) January 4, 2023 - Future Electronics, a global leading distributor of electronic components, has launched a global initiative solidifying themselves as a leader in the Energy Innovation sector.

As part of the worldwide campaign, Future Electronics will center themselves around four key, trending technology subsegments in 2023:

-EV Charging

-Smart Grid & Metering

-Renewable Energy

-Energy Storage

As a trusted partner with go-to resources in technology solutions and engineering expertise, Future Electronics is staying up to date on the latest trends to bring value to their business partners from concept to creation and beyond.
