Summary

Future Electronics is expanding Panasonic's PIR Motion Sensor lineup.

Message

Montreal, Canada (prsafe) January 29, 2021 - Future Electronics, a global leading distributor of electronic components, is sourcing Panasonic's new Wide Area Detection PIR Motion Sensor Line Extension to its existing portfolio.

Offering Wide Area Detection spanning over 10.8 meters, Panasonic's EKMB and EKMC Series have expanded, featuring a new lens design, wider detection area and the existing features that make this sensor lineup an ideal choice for passive infrared or Pyroelectric (PIR) motion sensors.

Panasonic "Wide Detection Area" Type PIR Sensors also feature a new lens to create various detection zones, an optical filter to block non-infrared light, Pyroelectric sensing elements, and an impedance converter to get an electrical signal.

About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a very extensive variety of electronic components. Founded by Robert G. Miller in 1968, Future Electronics believes its 5000 employees are its greatest asset, with 170 offices in 44 countries. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®.
